| Degree/Certificate | Institute/Board                                  | CGPA/Percentage | Year      |
|--------------------|--------------------------------------------------|-----------------|-----------|
| B.Tech. (CSE)      | Indian Institute of Technology, Tirupati         | 6.28%           | 2022-2026 |
| Senior Secondary   | Department Of Pre-University Education karnataka | 84.66%          | 2022      |
| Secondary          | Karnataka Secondary Education Examination Board  | 81.12%          | 2020      |

## EXPERIENCE

- Global Institute of Technology** May 2024 - July 2024  
*C++ Training* Bengaluru
  - Gained hands-on experience in writing, compiling, and debugging C++ code.
  - Implemented projects demonstrating structured problem-solving and optimization techniques.
- Eazily Done** May 2025 - July 2025  
*Software Engineering Intern* Bengaluru
  - Collaborated with L&T Finance to build an ML model predicting farmer income using diverse data like weather, soil, and crop yield.
  - Designed and executed SQL queries and Python data pipelines (pandas, scikit-learn) for preprocessing and analysis.
  - Applied statistical methods to reduce MAPE, improving decision-making for credit access.

## PROJECTS

- FutureFix: API City (Educational Game)**  
*Designed a mission-based game to teach API concepts (GET, POST, PUT, DELETE) through interactive city simulations.*
  - Developed gameplay logic and integrated API operations to enhance learning through real-time interactions.
- RISC-V Dual core Simulator** Jun. 2023 - July. 2023  
*Built a GUI-based simulator in C++ to visualize RISC-V dual-core instruction execution.*
  - Enabled users to interact with simulated execution and understand low-level system behavior.
- Accezy – Web Accessibility Tool**  
*Developed a React and Python-based tool to simplify and translate web content for elderly, children, and multilingual users*
  - Added features like text summarization, audio narration, voice commands, image description, and translation (10+ languages).
- Code Smell Detector for GitHub Repositories**  
*Built a Chrome extension to detect code smells in JavaScript and Python with metrics and refactored code view.*
  - Contributed modules for detecting code smells such as duplicate code, unused variables, too many parameters, and low comment density.

## TECHNICAL SKILLS

- Programming:** C/C++, Python, Assembly, JavaScript,
- Tools & OS:** Github, Linux, Windows, AutoCAD, Visual Studio code, codeblock
- Web Skills:** HTML/CSS/JS, ReactJS/NextJS

## KEY COURSES TAKEN

- Data Structure, Algorithms, Digital system, Computer Organization, Machine Learning, Computer Networks, Database Management System, Artificial Intelligence

## POSITIONS OF RESPONSIBILITY

- National Service Scheme (NSS) volunteer** IIT Tirupati 2022-2023
- Co-Coordinator of Cultural**, IIT Tirupati 2024-2025
- Co-Coordinator of Sports**, IIT Tirupati 2024-2025
- General Secretary Council member**, IIT Tirupati Present

## ACHIEVEMENTS & CERTIFICATIONS

- Competitive Exams** – Qualified NEET, KCET, AIISH, and JEE, demonstrating strong academic foundations.
- C++ Programming** – Completed certified training from Global Institute of Technology.
- Positions of Responsibility** – Held roles in Sports and Cultural Councils at IIT Tirupati.
- District-Level Athlete** – Represented in kho-kho, throwball, athletics; received multiple sports certificates.
- Award Certificates** – Earned accolades for leadership, academics, and athletics.
